

Faisal Islamic Bank of Egypt Fund Quarterly Report –Q2-2015

Fund's Performance

The market witnessed heightened volatility during the 2nd quarter of 2015. This came on the back of mixed news including postponing the implementation of the capital gains tax law for two years, escalating Greece debt crisis and the seasonal selling waves from government entities before the fiscal year end. The fund performance for 2Q2015 reached -5.4% while the EGX30 showed a performance of -6.0% for the same period.

Economy & Market Outlook

The Initial Public Offerings (IPO) pipeline resumed during the quarter with the leading developer of master planned communities Emaar Misr offering 600 million shares on Egypt Stock Exchange at a share price of EGP3.80. The IPO witnessed a remarkable success with the private placement being oversubscribed 11.2x while the public tranche was oversubscribed 36.0x. It is worth mentioning that Edita Food Industries showed resilient performance throughout the quarter with approximately 57% increase in its share price. On the company results front, Talaat Moustafa Group (TMG) reported net income of EGP188mn in 1Q2015 showing 17% annual growth. The company's off-plan sales reached EGP1.83bn showing 109% increase compared to 4Q2014 and beating the company's target for the quarter by 21%. Juhayna Food Industries also reported strong results for the quarter with net income increasing 51% year-on-year reaching EGP65.2 million due to a strong margin recovery during 1Q2015.

On the economic front, Egypt received the USD6.0 billion deposit from the GCC at the Central Bank of Egypt. Accordingly, net international reserves jumped during the quarter reaching USD19.6 billion by the end of May 2015 after some debt repayments worth USD 0.9 billion during the month. Standard and Poor's (S&P) updated its outlook on Egypt from stable to positive after witnessing gradual economic recovery in the country since 2014. The government announced a target GDP growth of 5% in FY2015/2016 with a strong recovery in public and private investments along with a further cut in fuel subsidies. Foreign direct investments showed strong recovery during 3Q2014/2015 reaching USD3.0 billion. Annual headline inflation accelerated to reach 13.1% in May 2015 compared to 11.0% in the previous month as food prices hiked prior to the month of Ramadan. It is worth mentioning that the government conducted its first international bond sale since 2010 selling USD1.5 billion of 10 year bonds at a yield of 6%. The bond sale witnessed notable success being oversubscribed 3.0x by foreign investors.

Investment Strategy

The fund's current portfolio is diversified between high-beta, cyclical and defensive names to reflect the uncertainty prevailing on the market. The manager will maintain his current equity exposure with a wary stance given the current local and global developments.
